

CARPET TILE

Stain Resistant

Polypropylene Construction

Simple To Install

20" x 20"
Tiles or Rolls

Anti-microbial

Waterproof

**FAR MORE DURABLE THAN TRADITIONAL NYLON CARPET.
YOU CAN'T FIND A TOUGHER FLOOR!**

WHY CARPET TILE?

1. Polypropylene fiber repels moisture, including sweat and food stains often found in cardio spinning rooms, weight rooms, stretching areas and childcare facilities.
2. Polypropylene fiber is far more durable than traditional nylon carpet; it easily stands up to free weight and selectorized machines placed directly on it.
3. Move your machines around without dents or rust marks being left on your carpet.
4. Carpet Tile is anti-microbial and fast drying, ideal for locker rooms.
5. Carpet Tile will not rot, stain or mildew around water fountains, hot tubs or pools.
6. Carpet Tile easily releases stains, and can be cleaned using standard shampooing methods.
7. Needle punch method of manufacturing allows flooring to be cut into patterns, curves, borders, and logos without fraying.
8. Needle punching prevents flooring from zippering like standard tufted carpet, even when machines are dragged over it.
9. The backing on rolls and tile are waterproof.
10. Easy to install with inexpensive multipurpose adhesive.
11. Rolls and tiles don't need to be seamed, just butt together.

APPLICATIONS:

Foyers
Walkways
Offices
Weight Rooms
Cardio Rooms
Locker Rooms
Childcare

Four styles
and many colors
to choose from.

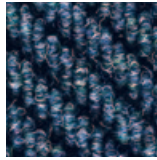

Allied has many flooring products.

Due to variations in color during printing process, carpet tile selection should be made from an actual sample.

Warranty

Limited 7-year Abrasive Wear Warranty on indoor installations. Warranty requires product installation over a dry, smooth, hard, flat surface free of cracks and foreign substances. Product must be installed using the appropriate adhesives, or approved equal. Product must be maintained according to maintenance instructions.

Maintenance

Daily

Vacuum daily with a commercial grade vacuum cleaner that features a rotary power brush or beater bar. Product releases more soil when completely dry.

Periodic Maintenance

This product cleans beautifully with the use of a Hot Water Extraction machine.

Service with Value, Experience & Integrity

These fine products are engineered with just the right balance of design, performance, and durability. They will enhance the user's experience of any facility and are market proven with installations worldwide.

Allied Products can provide a full range of services from design assistance to installation. With over fifteen years experience we have been involved in hundreds of club installations and are well qualified to provide you with the exceptional personal service you deserve.
